

Why Outdoor Adventure Northwest?

Using Outdoor Adventure Northwest solves the following problems that many riders have experienced trying to organize off road week long adventures. When on vacation for riding, you just want to RIDE, EAT and REST. Everything else is what I “have to do” or “put up with” so that I can ride and explore, eat and rest. At Outdoor Adventure Northwest we aim to take all that extra work that goes with trips like these and provide it as a premium service so you can really rest the mind and body as only off road riders know how to do.

Outdoor Adventure Northwest solves the following off road vacation problems, hassles or worries:

- Forgot that special dinner ingredient, i.e. burger meat for the burgers
- Spend all my time trying to figure out where to go
- Found the great place to ride on the last day or hour of riding
- Forgot key bike gear but remembered all the other camp gear and supplies
- Too tired to cook after a full day of adventuring or riding
- No place to clean the gear and clothing
- No place to work on your toys, bikes, SUV, etc. that is not in the dirt or rain
- All the tracks are too dangerous for the kids to ride or get over run by aggressive public riders
- Kids area is too far for parents to watch from camp
- Being rushed for time or pressured from behind on a track
- Being forced into bad ruts or bad lines by other riders
- Preparing the motorhome or travel trailer is time consuming
- Loading the travel trailer is time consuming
- Unloading the travel trailer is time consuming
- Motorhomes or travel trailer system malfunctions
- Many destinations don't have anything else to do on non-tour or rest days
- Sleeping in a motor home can be loud, annoying, hot, cold and uncomfortable especially with a group
- Showers if available are cramped, require maintenance and are very short
- Off road activities often mess up and dirty the toy haulers, travel trailers, and motorhomes so bad that tons of clean up inside and outside is required afterwards

- Riding forest and desert trails full of giant whoops. Yikes. Not very relaxing
- No place to cool off on hot days
- Cannot ride my off road vehicle into town due to laws
- Forgot to fill the propane tanks, water tanks or used them too fast
- No place to stretch out and relax on the carpet floor like home when you are sore or tight
- Leveling the housing trailers can be a real pain
- Finding a camp or being forced to camp somewhere less desirable with no view
- Loud or inconsiderate fellow off road campers
- No place to catch some rays out of the wind
- The cooking and cleaning portion alone is always a job no one wants and often happens when others want to ride.
- Housing is all cramped when the weather gets bad.

Seek first to understand, then to be understood.

Just Bring yourself, your bike and your gear, we take care of the rest.
