House and Camp Rules

Have Fun.

No shooting at night.

Track only open during daylight hours.

No shooting while any riding is happening

No Fires of any kind at all during burn ban season.

Did we mention, have fun?

Septic system rules – Ask if you don't know. You block the septic you fix it.

Always go in the same direction when sharing the track with others.

Use partners for blind jumps and hills

Bring your own booze.

No taking all the camp host's money in poker.

No Smoking in the house

Make sure any cigs are dead out. (If you cause a fire you pay the \$10,000 fine)

No fireworks

You break it or mess it up, you fix it the way it was.

No jumping the barns, house or vehicles.

No burn outs in the gravel drives and parking areas

Close cow gates behind you unless you like riding, stepping or falling in you know what

No oil or gas on the cement or decks. This means oil changes or "tipping" your bike to load the carbs or just filing up on gas. Try and keep it in one area. We don't want to track it into the decks or into the house.

Keep fuels in designated storage areas only please

No drunk riding. We really don't want to take care of you at the hospital with all this good riding to be had.

Most important, have fun
